EDUCATION

BSc in Computer Science

Institute of Technology of Cambodia
2022 - Present

High School Diploma

Bak Touk HighSchool
2016 - 2021

SKILLS

- Front-end: Vue.js, Pinia, HTML, Tailwind CSS
- Backend: NestJs, REST API
- Tools: VS Code, Git Hub, Postman, Docker
- Database: MySQL
- Language: JavaScript, TypeScript
- Language: Khmer, English

ABOUT ME

I am a Computer Science undergraduate and an aspiring full-stack developer, passionate about building clean, user-friendly web applications. I specialize in Vue.js for frontend development and am exploring backend technologies. Driven by curiosity and creativity, I aim to create solutions that are both functional and impactful.

EXPERIENCE

PhoneEdge

Nov 2024 - Jan 2022

PhoneEdge is an e-commerce website for high-quality phone accessories. Responsible for UI development and component design using Vue.js, including the product listing page and product detail page.

- Tech: Vue.js, HTML, CSS, JavaScript
- Git Hub: https://github.com/lymakara-dev/vue_ecommerce.git

Bloggist

Feb 2025 - June 2025

A blogging platform inspired by Medium, allowing users to publish, read, and engage with articles. Responsible for developing the feed pages (For You, Following) and contributed to the recommendation algorithm for the For You page.

- Tech: Vue.js, TailwindCSS v4, Typescript, Laravel PHP, MySQL
- Git Hub: <https://github.com/Sovanda-Mith/articles-hosting-site.git>

Project Management System

Aug 2025 - Nov 2025

A Project Management System for tracking tasks, team collaboration, and progress monitoring. Responsible for developing the dashboard, task and subtask pages, team page, and notifications features.

- Tech: Vue.js, Pinia, NestJS, MySQL
- Git Hub: <https://github.com/yon-samphorslita/project-tracker.git>
